Security Quick Report

Contract Analyzed [Solidity v. 0.8.3]

https://etherscan.io/address/0x1fc7A7975FAa73F974BA9d376C60c918956dc728#code

HIGH – None
Medium – 1 Risk
Low – 1 Risk
Minimal – None

Risk assessment is color-coded for convenience.
The risks are as follows, and their respective colors:

HIGH – SEVERE risk. Could either honeypot, rug, somehow scam the user, or prevent the contract from functioning as intended.
Medium – Could allow the owner to stop trading while being able to trade himself, make the user lose money, or something similar.
Low – Risks that could allow the owner to somehow have an edge, allow users he choose to have an edge, or the ability to manipulate the contract, prices, or something similar.
Minimal - Risks that are not potentially investment-threatening, but needs be mentioned anyway. This could include poor code or poor optimization, etc.

Security and Code

Blacklist [Medium Risk]

The owner is able to blacklist any user from trading, without limits. While this is flagged as a medium risk, if there is trust in the developer this can be ignored.

Limitless Exclusions [Low Risk]

The owner is able to set any address to be excluded from fees, rewards, or limits at any time.

Closing Notes

The only real risk in this contract is the blacklist. Please make sure you have trust in the team, if you do, then you can consider this not a risk at all. Please do your own research and ensure you have trust in the project and its team before investing.

Always make sure to always inspect all values and variables.

This includes, but is not limited to:

- Ownership

- Proper Ownership Renouncement (if any)

- Taxes

- Transaction/Wallet Limits

- Token Distributions

- Timelocks

- Liqudity Locks

- Any other owner-adjustable settings or variables.

Final Disclaimer

I am solely a smart contract writer/auditor. I do not promote, own, or lead projects unless specifically and explicitly stated. I am not a good trader, I know nothing of Technical Analysis, and for the most part I do not trade. Despite my best efforts, I can never guarantee full safety, though I do my best to check for and announce all risks. There are many tricks and variations that unscrupulous people can enact even with safe contracts. Please always do your research.

I am only human, and I make mistakes as well.
